Abstract (Basic): DE 3324635 A

The disposable multi-purpose package accommodates one or more substances in portions, together with an instrument for use with them or separately. It has a wall forming a totally-enclosed chamber, with a weakened point at which it is opened, enclosing the substance and the working part of the instrument. The wall also encloses and secures the instrument handle and forms part of this and of the instrument itself.

USE - Particularly for the treatment of injuries by first-aid etc.
